

**Mexx Eyes  
Style 2626**

Stylish, lightweight, and modern: The Mexx women's frame 2826 combines stainless steel with an inlaid acetate rim in a subtle butterfly shape. A colored accent is created by the second acetate piece integrated on the side—subtle yet full of character. The frame perfectly suits an urban lifestyle and appeals to women who value individual design and comfortable wear. A model that blends casual look with expression.
